### 2027-67 One-Day Tire Collection Event

#### Addendum #1 – February 20, 2026

#### We received the following questions regarding this RFP:

Question #1: Is this event by invitation or open to whomever stops by? You have an estimate of 15k to 20K tires to collect on this event. That will require 15 to 20 trailers. OTR type of tires will increase the number of trailers too. We would like to know how many trailers will be used ahead of the event if possible.

Answer #1: The event is open to all Will County residents. It is always hard to determine how many OTR come into the event and regular tires. However, in the past Will County has had these events every 4 to 5 years. The last event was held in 2023 with 12 trailers of regular tires and 7 with OTR. Since the last event was three years ago, Will County is expecting a lower amount of tires this year.

Question #2: Do you know the average of volunteers attending the event?

Answer #2: Average number of volunteers for the event is usually around 6 to survey and possibly direct traffic.

Question #3: Since the Will County Fair grounds is hosting this event and other events afterward, all trailers, tires and equipment must be removed by the end of the day of the event.

Answer #3: Since the Will County Fairgrounds is hosting this event and other events afterward, all trailers, tires and equipment must be removed by the end of the day of the event.
