2026-65 SHNH Furniture Replacement

Addendum #1 March 10, 2026

We received the following questions regarding this RFQ:

Question #1: Do you have a time frame involving the staged install? Do you want it spread out over a week, as example?

Answer #1: Given that we are dealing with occupied rooms, and residents are elderly and frail I will need to stretch the removal and installation over a week at a minimum. A final installation schedule will be staged and established directly with Sunny Hill once the bid has been awarded.

Question #2: Do you know how far apart they want each of these shipments?

Answer #2: Installation schedule will be staged and established directly with Sunny Hill once the bid has been awarded.

Question #3: We noticed the bid requests 156 pieces for each style. However, the furniture inventory attachment notes 222 each. I want to verify that we should use 156 ea. Correct?

Answer #3: All quantities listed in the solicitation are correct.
